

matter with him. If he knows the truth, he may seek and find a cure.

See then that you listen to God when He tells you that you are a sinner, because everything that He says is true. But He also tells you in the Bible that Christ is able to heal you, to cleanse your soul and save you. So He is the Great Physician of souls — a Doctor for our souls, whose cure never fails. Always remember how much *you* need Him to heal your soul, and ask Him to do that for you.

## Elephants

---

**O**N our recent visit to the Victoria Falls we actually stood on the road while a herd of elephants passed right beside us. While rather alarming, it was also fascinating to see these extraordinary animals at such close quarters — the huge males, the smaller mothers and two or three tinies, already exact replicas of their parents.

They say that elephants never forget. It seems that particular herds come each day to drink from the same place at the river, just near where we were staying. They certainly did not forget this good source of water.

However wonderful these creatures are, we ourselves have been created by the same Creator in a much more wonderful way. We have been made in God's image; we have a living soul. We too, have been given a memory, but how easily we forget! Perhaps you have made up your mind many times to be obedient and helpful at home; perhaps even to seek Christ. Yet how easily and quickly your intention was forgotten! Why is this? It is because we are sinful, and sin affects even our memories!

We need to pray to God to help us to remember what we should remember — especially that we would remember our Creator, God Himself. God says to you,
